

ARE YOU A GOOD  
BUG HUNTER?

VOLUME 16, NO. 31

## Mrs. J.H. Wright Is Appointed To Post Office

Recommendation of Mrs. J. H. Wright for appointment as postmaster of Sierra Madre has been made by Congressman W. F. Lineberger. Information to that effect was received last night by Mrs. Wright in a telegram from Mr. Lineberger, and she has been receiving congratulations on the prospective appointment this morning.

Postmaster Morgridge phoned his congratulations and offered any assistance that he might be able to render when the time comes to transfer the office. Having sent in his resignation early in January, he assured her that if any influence could be brought to bear to hasten the unwinding of red tape and terminate his tenure of office he would be greatly pleased.

Action on the appointment has been expected daily, as it was known the civil service commission had narrowed the field down to three candidates as required by the regulations.

Robert Steinberger received notice on Wednesday that his application had been finally rejected. It had once before been rejected on the allegation of non-residence. It was later re-instated on the showing that the only breaks in his 29 years of residence in Sierra Madre were during army service in the World War and a temporary absence in Riverside.

Service men being supposed to have the preference in such appointments, the elimination of Mr. Steinberger left the other three applicants on an equal footing so far as the civil service requirements were concerned. It is supposed all three were certified to the post office department as eligibles and Mr. Lineberger made his recommendation from that list.

### E. H. CARPENTER CALLED EAST BY A DEATH

E. H. Carpenter received a message Thursday morning telling of the death of his sister-in-law, Mrs. A. W. Carpenter of Burlington, Iowa. He left on the Santa Fe Limited at noon in order to reach there for the funeral services.

In the absence of Mr. Carpenter, who has been assisting in the post office the past nine months, it was necessary for the editor of the News to resume active work as postmaster. De Witt Jones, who has had a considerable amount of newspaper experience, came to the rescue in the News office and has been of great assistance in getting out this week's issue. Delay in getting this number into the mails is due to a delayed freight shipment and not to affairs inside the office.

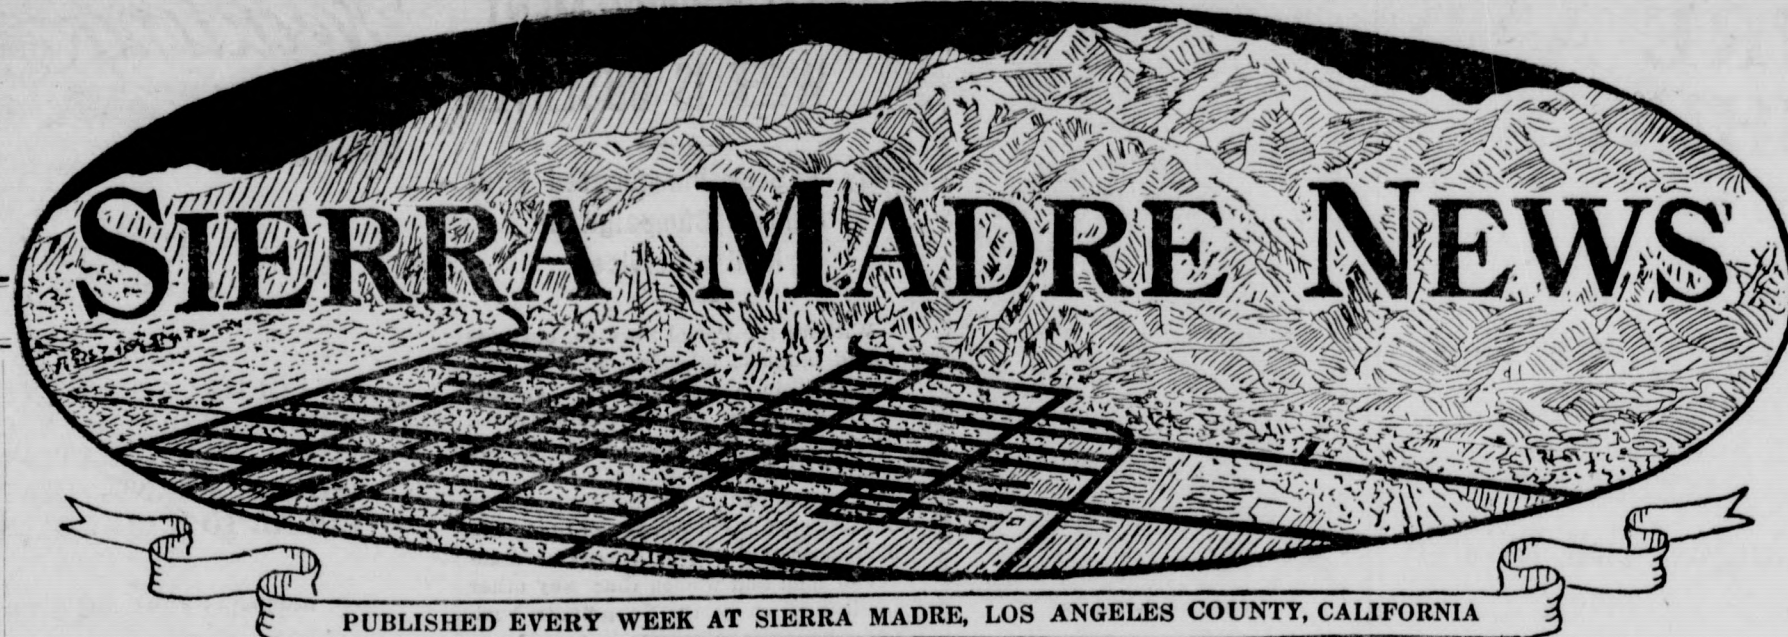

Mail carrier J. E. Thompson suffered an injury to his foot about noon Thursday, and was compelled to retire for treatment. It is uncertain just how long his injury will keep him out of service.

Mr. Thompson's disability made it necessary to fall back on W. P. Caley, the old standby. Although not caring for the strenuousness of regular work as mail carrier, Mr. Caley is always willing to lend a hand to keep the service going. Mrs. Carpenter is also assisting inside the office in her husband's absence.

### MISS TULLY DIES AFTER LONG ILLNESS

Miss Anne Tully passed away last Friday after an illness lasting over a period of many months. After partially recovering from a paralytic stroke it became necessary for her to undergo an operation. She was unable to rally her strength and gradually failed till the end came.

Miss Tully was a native of Nevada City, California, and the daughter of Mr. and Mrs. R. W. Tully. She was 56 years of age. Showing great musical talent when young, she was given the best of musical training. She studied voice in London under William Shakespeare and the de Reszke brothers. She taught piano and voice in Los Angeles and Sierra Madre for a number of years. She is survived by two brothers and a sister, Richard Walton Tully, Jr., the author and playwright, and Argyle Tully and Miss Mai Tully of Sierra Madre. Funeral services were conducted on Wednesday by Dean Shaw at the chapel of A. T. Gay.

## New Church Of Scientists Is Beautiful

Simple, restful beauty within and exterior architecture that invites one within, characterize the new church home of the Christian Science Society of Sierra Madre at the corner of Hermosa and Highland. The building has now reached completion and the grounds are receiving the finishing touches.

From the first design to the completed work, practically every step represents the work of members of the society, an interesting fact of which the members are justly proud. A. D. Clough of 44 W. Carter was the architect. He not only planned the building but designed the electric light fixtures and every detail of finish and furnishings.

The contract for the work was handled entirely by W. E. Walker, who took great pains in the perfecting of the work. The building and lot represent a total valuation of about \$15,000.

The main auditorium has a seating capacity of about 150. This can be augmented by opening sliding doors into the reading room which extends across the rear of the auditorium, with room for fifty chairs. The auditorium is rectangular, with the audience facing the east. The arched and beamed ceiling is high enough for perfect acoustic properties but not high enough to lose the cosy, intimate atmosphere which is desirable for an auditorium of the size.

Walls are finished throughout in a delicate cream, with all woodwork and pews in a delicate silver grey. Narrow window drapes and hangings at the edge of the rostrum are of mulberry velvet and lend just the right color to avoid coldness. The carpet is in harmony with the woodwork.

The main entrance at the northwest corner of the building opens into a spacious lobby. Another entrance at the southwest corner gives access from the auto parking space which is provided on the rear and side of the church lot. From this entrance open dressing rooms for men and women. At the northeast corner of the building spacious room is provided for musicians and readers.

The whole effect of the building inside and out is one of genuine charm. It adds another to the list of distinctive and attractive church edifices of Sierra Madre.

Directors of the Sierra Madre Christian Science Society for the present year are Dr. Frederick S. Campbell, Mrs. A. D. Clough and Mrs. H. T. Fennel. The readers are Miss Christine Johnstone and Mrs. H. C. Parker.

### RED CROSS BENEFIT CONCERT THIS MONTH Talented Artists Will Appear On Program To Be Given Here Soon

Professor Hague Kinsey and other talented artists will give a concert on Friday the 26th of May, at the Woman's Club House for the benefit of the Sierra Madre Chapter of the Red Cross. Music lovers will be pleased to have this opportunity of hearing Professor Kinsey who is an organist and pianist of note, and who has recently been visiting Sierra Madre weekly to give instruction in the piano and organ.

The affair will be under the auspices of the directors of the Red Cross President. Tickets will soon be on sale, and you are urged to secure yours early so as to assure a good attendance. We expect to print the program in our next issue.

### WILL STAGE STUNT AT EL MONTE HI-JINKS

A vaudeville company of four will do honors for Sierra Madre at the annual Hi-Jinks of the Associated Chambers of Commerce of the San Gabriel Valley which will be held in El Monte, June 6. The personnel will be Mrs. H. E. Allen, Hall Perry, J. N. Hawks and Norval McGregor, all of whom rank high in either amateur or professional theatrics. Every organization member of the association is to provide a stunt for the entertainment, the delegates are to bring their ladies and a meeting is to be held that is to be a hi-jinks in every sense of the word.

### SALVATION ARMY DRIVE STARTED Campaign Committee Will Endeavor To Raise Quota Before Next Thursday

The Annual Drive of the Salvation Army is progressing nicely in Sierra Madre, according to E. J. Webster, chairman of the campaign committee. The drive was formally launched last Monday night at the Community Sing where more than \$100 was subscribed. Since that time the committee has increased the donations until they are well above \$200.

The quota given to Sierra Madre to raise was \$500 and the campaign is scheduled to end May 11. The committee expects to concentrate their efforts next week so that the town will be over the top when the time to close the books comes.

### FORMER CONGRESSMAN BACKS ENFORCEMENT

Charles H. Randall, formerly congressman from this district, was calling on Sierra Madre friends Wednesday. He is at present supervising publicity in support of the Wright enforcement act, which will be voted on by referendum at the November election. As the only prohibition party man who ever sat in congress, Mr. Randall took an important part in securing passage of the Volstead law and other temperance legislation, especially furthering war time prohibition. The purpose of the Wright act is merely to incorporate the Volstead law as part of the law of California, to facilitate enforcement and to divert revenue from fines into the state treasury. Similar legislation has already been adopted by a large number of the other states.

### MONROVIA MEETING IS WELL ATTENDED

A delegation of ten went to Monrovia Tuesday night to attend the monthly banquet of the Associated Chambers of Commerce of the San Gabriel Valley. William C. Farrell of Salt Lake City, Utah was the principal speaker of the evening and combined some rare humor with startling statistics in a very pleasing manner. Mr. Farrell told of vast deposits of copper, iron and coal in an undeveloped part of Utah and ended by stating that the logical destination of these raw materials was Los Angeles, as the only down hill route led within a few miles of that city.

### SCHOOL MAY FESTIVAL IN PROGRESS TODAY

The May Festival, which has become one of the big events of the local school year is in progress today with a large crowd of patrons and friends of the school witnessing the fete. Both the teachers and pupils of the school have been putting in over time to make the event a success and from all reports their effort has not been in vain.

### A RAWLEIGH MERCHANT FOR SIERRA MADRE

Frank E. Barbour, 47 North Lima Street has closed a contract with the W. T. Rawleigh Company whereby he becomes their representative in Sierra Madre and Arcadia. Mr. Barbour carries a large supply of perfumes, spices, flavoring and toilet articles which he is introducing to the housewives of the two towns and expects to soon have a permanent clientele of users of Rawleigh products.

### CHRISTIAN ENDEAVOR PARTY TONIGHT

The Christian Endeavor Society of the Congregational Church will hold a party tonight at the home of Edwin Ward. All members and friends of the society are cordially invited to attend.

### SIBLE BANKRUPT

Frank D. Sible, who has been conducting a bakery in Sierra Madre, has gone out of business and filed a voluntary petition in bankruptcy. His liabilities are listed at \$1,500.00 and his assets at \$3,139.00.

### Firemen Open Building Bids

Bids for the construction of the new Firemen's Club house were opened Wednesday night at a meeting of the board of directors in the city hall. The bid of H. J. Russell for brick work was accepted, the Sierra Madre Hardware Company was voted the contract for plumbing and the Sierra Madre Electric Company for electric wiring. None of the bids for the carpenter work were according to specifications so all were rejected and further bids will be received before the contracts are let. It is understood that building operations will be resumed in the near future.

### MEMORY OF MRS. THACHER IS DEAR TO MANY

Mrs. William L. Thacher passed away after a long illness, closing a life the memory of which is fondly cherished by a multitude of friends.

Mrs. Thacher was a native of Dartington, England. Thirty-five years ago as a child she came to Sierra Madre with her parents, Mr. and Mrs. John G. Blumer. Her home was here until her marriage and as she grew to womanhood the splendid qualities of character which she developed endeared her to the entire community. She was very much interested in charitable and educational work and was one of the original members of the Modern Priscillas. She was married to Mr. Thacher in 1911 and had since made her home at Ojai where her husband is associated with his brother, Mr. Sherman Thacher, in the conduct of Thacher School for Boys, and where she endeavored herself to a wider circle as she had in her old home.

Two children were born to Mr. and Mrs. Thacher, Edith and Roger Blumer Thacher. The latter died in 1920. Constant devotion to Red Cross work during the World War resulted in seriously impaired strength and was a principal cause of the long illness which proved to be her last. Funeral services were held on Saturday at the chapel of Allen T. Gay, and were conducted by Rev. Dr. George H. Cornell, formerly rector of Ascension Church.

In addition to her husband and little daughter, Mrs. Thacher leaves her mother, Mrs. J. G. Blumer and her sisters Miss Edith Blumer of Sierra Madre, and Mrs. John W. Hart of San Marino, and her brothers, Dr. George Blumer, Dean of Yale Medical School, Philip Blumer of Los Angeles and Fred Blumer.

### MONROVIA ELKS OVER RECRUITING MEMBERS

On Thursday evening a delegation of Elks from the Monrovia Lodge met prospective members from Sierra Madre at the city hall. Many applications were signed and examinations will start immediately. The Monrovia lodge which has jurisdiction over Sierra Madre, El Monte, Glendora, Azusa, Arcadia and Baldwin Park has made rapid growth since its organization recently, 112 members having been taken in since December. It has a total of 171 members and has purchased a fine building site on W. White Oak. Persons interested may receive desired information from L. Dietz or A. M. Udell at the city hall.

### THEY PLAYED IN THE SIERRA MADRE GARAGE

The Chamber of Commerce band met last night in the Sierra Madre Garage for their second practise, their regular meeting place being taken over for the equipment of the May festival. Several new faces were seen among the musicians and it is believed that in a comparatively short time Director Melvin will have one of the best bands that Sierra Madre has supported in years. The present need is for altos. Instruments will be furnished anyone who has had experience in band work and is willing to devote some of his time to band work.

### To Sell Milk to School Pupils

The Parent-Teacher's Association met yesterday in the school building on call from E. H. Reynolds, superintendent of the school to discuss the problem of furnishing milk to the Sierra Madre school children, many of whom are reported to be suffering from undernourishment. It was decided that milk should be furnished the children at the morning recess next Monday at five cents per glass and that the milk used for children, whose parents are unable to pay should be purchased by the association. A ways and means committee was appointed with Mr. Reynolds as chairman for the purpose of providing a milk fund.

### MOVING PICTURE THEATER SOON, MAYBE

Contracts are expected to be closed this week between the builder and operator of a proposed moving picture theater according to reports, and if the contracts are closed it will be only a short time until Sierra Madre has an up-to-date picture show. It is understood that the plans call for one of the finest small picture houses in the San Gabriel Valley.

### ENTERTAINED AT DINNER

Mr. and Mrs. Frank E. Barbour entertained Miss Ruth Saline, Miss Harriet Compton and Miss Ethel Proctor at an informal dinner Wednesday night. After dinner a temporary orchestra was organized and the evening was spent in music.

### The Story of Our States

By JONATHAN BRACE  
XXIX.—IOWA

THE State of Iowa was originally occupied by the Iowa Indians. The actual meaning of the word

has been interpreted in several ways. Some say it means "beautiful land," but the more likely derivation is the Algonquin word "ajawa" which means "across" or "beyond." This was probably applied to this tribe of Indians by the Illinois tribes who were hostile to them, and resided on the eastern side of the Mississippi river. The early white visitors to this region included Marquette and Joliet, who landed here on their explorations of the Mississippi in 1673.

The first settlement was made by a French Canadian named Julien Dubuque. He obtained in 1788 a large grant of land from the Indians, where the city which was named after him now stands. Here he flourished, mining lead and trading with the Indians, until his death in 1810, when this settlement was given up.

With the acquisition of the Louisiana Purchase in 1803, Iowa, which was a part of this huge territory, came into the hands of the United States from France. At first Iowa was a part of the Louisiana territory, then of Missouri territory. Later it formed a portion of Michigan territory and then of Wisconsin territory. In 1838, however, it attained a distinct individuality when it was formed into the Iowa territory.

Pioneers soon came in large numbers and about 1832 a substantial settlement was made near Burlington, and Dubuque was founded in 1833. The population grew so rapidly that in 1846 Iowa was admitted as the twenty-ninth state of the Union. Its area is 56,147 square miles and it has thirteen presidential electoral votes.

Iowa is familiarly called the Hawkeye State.

### PIGRIMS COMING TO SIERRA MADRE Rev. Father Woodcutter Expects A Large Crowd At Annual Pilgrimage

The third annual pilgrimage to the Shrine of St. Rita will be held this year on May 21, according to Father Woodcutter, who is in charge of the Shrine. The ceremony is known as the Feast of the Roses. The devotion will begin at 3 o'clock but Solemn High Mass will be said at 9:30 for the benefit of the visitors who wish to spend the day in Sierra Madre. The principle ceremony will be the blessing of the roses, one of which will be given to each of the pilgrims and a large number will be sent to friends of the church who live too far away to or are otherwise prevented from making the pilgrimage.

At the annual pilgrimage last year, about 2,000 visitors were present for the ceremony. Since that time the Society of St. Rita has had a large increase in its membership and the crowd of pilgrims this year is expected to be much larger. The Pacific Electric will run a special 20-minute service from Los Angeles between 1 and 2 Sunday afternoon to take care of the crowd that is expected at the Shrine.

### Local Happenings

Long's big music store of Pasadena announces a tremendous sale of musical goods of all kinds Mr. Long having agreed to buy out the interest of his partner and putting on the sale as a money raising event. Perusal of the announcement in another part of this paper will be well worth while to anyone interested in pianos and other musical goods.

Dr. E. A. Thomas has bought the large place at the head of Sycamore place, formerly owned by Dr. Anna Small. He will devote it to the treatment of destructive habits, specializing in psycho-therapeutics. Dr. Thomas formerly conducted a similar institution in San Diego, but regards the location and climate of Sierra Madre as peculiarly suited to his purpose and methods.

The annual convention of the Rexall drug stores of Southern California has been in session Wednesday and Thursday of this week at Hotel Alexandria, combining social features with the exchange of up to date commercial ideas. The Hartman drug store, which is the local Rexall store, was represented in turn by F. H. Hartman, Mr. and Mrs. Ivan Buie, Rudolph Hartman and Agnes Kittelson.

Mr. and Mrs. S. M. Karicofe entertained with a dinner party, their guests being the members of the Congregational Sunday School teachers club, with a few additional guests. Twenty-five covers were laid for the delicious repast. Following which came a social hour and the regular monthly business meeting.

Mr. and Mrs. Roland A. Adams entertained with a delightful dinner party on Friday evening. The guests were Mrs. Elizabeth Requa, Mr. and Mrs. Victor Hill and Mr. Herbert Ingraham. The affair was in honor of the birthdays of Mrs. Adams and Mrs. Hill. Dancing was enjoyed at the club house later.

Dr. and Mrs. C. Shaw who have been visiting at the home of Mr. and Mrs. J. Krafft, 448 West Highland Avenue, left yesterday for their home in San Francisco.

Record of Irish Regiments.  
All but two Irish regiments bear on their colors the record "South Africa." One is the Fourth (Royal Irish) Dragoon Guards. The other lacks this and other battle-honors for a very sufficient reason; it came into existence in 1900 by command of Queen Victoria, to celebrate and to commemorate the honorable exploits of the other Irish regiments in the Boer war. This is the Irish Guards and it was added to the Brigade of Guards as a special distinction to all Irish troops.

### HARDING GETS NEW CANE

Garret Sutton Wall of Harrisburg, Pa., called at the White House the other day and presented to President Harding a walking cane made from mahogany taken from the old Pennsylvania state capitol at Harrisburg, which was burned in 1897.

#### A Steady Job.

Beggar (at the door)—Please help a blind man.

Householder—Aren't you the lame man who begged a dime off me yesterday?

Beggar—Impossible, sir! I've been born blind for the last seven years.

#### The Monarch.

The form of the oak tree is the true embodiment of nobility, for when grown fairly and naturally it is a perfect emblem of its qualities, so firm set, so massive, and strong; you may always know it instantly, whether as a wintry skeleton form, bare, and gnarled, and angular, or in its summer garb of rich and finely massed foliage, always the monarch of the woods.—Miss Henrietta Dumont.

#### Faithful Repositories.

Books are faithful repositories, which may be awhile neglected or forgotten; but when they are opened again, will again impart their instruction.—Samuel Johnson.

#### Quick Wit Catches Thieves.

Two men photographed in a London studio were seen to steal some money from the till as they passed through the shop. The woman photographer developed the negatives quickly, took the photographs to the police, and the men were arrested.

#### CERTIFICATE OF BUSINESS

(Fictitious Firm Name)

The undersigned does hereby certify that he is conducting an automobile and garage business at 4 West Central avenue, in the City of Sierra Madre, County of Los Angeles, State of California, under the fictitious firm name of Central Garage and that said firm is composed of the following persons, whose names and addresses are as follows, to-wit: Joseph Belohlavek, 687 West Alegria St., Sierra Madre, Cal.

Witness his hand this 14th day of April, 1922.

**JOSEPH BELOHAVEK.**

State of California, County of Los Angeles, ss.

On this 14th day of April, in the year nineteen hundred and twenty-two, before me, Robert Mitchell, a notary public in and for said county, residing therein, duly commissioned and sworn, personally appeared Joseph Belohlavek, known to me to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same.

Witness my hand and official seal. (SEAL) — **ROBERT MITCHELL.**  
Notary Public in and for said County and State.

Filed April 15, 1922.

## POSTAL IMPROVEMENT WEEK IS OBSERVED

May 1 Sees Inaugurated First General Campaign of Kind in Service.

Without the Postal Service, business would languish in a day, and be at a standstill in a week. Public opinion would die of dry rot. Sectional hatred or prejudice only would flourish, and narrow-mindedness thrive.

It is the biggest distinctive business in the world and it comes nearer to the innermost interests of a greater number of men and women than any other institution on earth. No private business, however widespread, touches so many lives so often or sharply; no church reaches into so many souls, flutters so many pulses, has so many human beings dependent on its ministrations.

"Postal Improvement Week" has been set for May 1, by the Postmaster General. This is the first general campaign of its kind in the Postal Service for several decades. Business men and their organizations, large users of the mail, newspapers, motion pictures, advertisers, and the entire organization of 328,000 postal workers are to be enlisted in this country-wide campaign of interest in postal improvements. Your help is vital. Address your letters plainly with pen or typewriter. Give street address. Spell out name of State, don't abbreviate. Put your return address in the upper left hand corner of envelope (not on the back) and always look at your letter before dropping in the mail to see if it is properly addressed. This care in the use of the mails is for your benefit and speeds up the dispatch and delivery of mail matter.

If you have any complaints of poor service make them to your postmaster. He has instructions to investigate them and report to the department.

### COURTESY

It sticks in human relations like postage stamps on letters. The POST OFFICE DEPARTMENT expects it to be used by its postmasters and employees in dealing with the public.

Help them in its use beginning with **POSTAL IMPROVEMENT WEEK, May 1-6, 1922**

Phone social items to Black 42—The News Office.

## Sell Stadium Scrip in Sierra Madre

The proposition of selling seat scrip for the new Pasadena stadium was brought before the Chamber of Commerce at the noon luncheon Tuesday, by Earl Topping. The scrip is for sale in blocks of \$10.00 and \$25.00 and is good for 5-dollar reservations at any foot ball game or tournament for the next 99 years. While the 99-year reservation did not appeal strongly to the older members of the chamber it was voted by all that such scrip would be an excellent buy and several stated that they were willing to buy large amounts and hold them until near the annual New Year foot ball games. The first twenty towns to sell \$5,000 worth of scrip will have an arch in the stadium named in their honor.

### Bat's Physical Limitation.

A bat cannot rise from a perfectly level surface. These winged mammals are remarkably nimble in their flight when once on the wing and can fly for many hours at a time without rest, but if placed on a floor or flat ground they are utterly unable to use their wings. The only thing a bat can do in such a situation is to shuffle helplessly and doubtless painfully along until it reaches some trifling elevation from which it can throw itself into the air. Then at once it is off like a flash.

### American Playing Cards.

Early American playing cards, according to an article in the American Printer, showed the national antipathy to kings and queens by presenting, instead of the conventional figures with which playing cards are now adorned, the following pictures: "President" of hearts, George Washington; of diamonds, John Adams; of clubs, Benjamin Franklin; of spades, Lafayette. The "queens" were Venus, Fortune, Ceres and Minerva. The knaves were represented, appropriately reflecting the general feeling among the whites by pictures of Indian chiefs.—Outlook

### The World-Wise Vicar.

A cantankerous person told the vicar whom he had come to see on some local matter that he was an atheist. "But surely," said the vicar, "you consider the Ten Commandments, broadly speaking, to be an excellent rule of life?" "No, I do not," replied the man almost savagely. The vicar rang his bell. "John," said he to his servant, "show this man to the door and keep your eye on him until he is beyond the reach of my hat and coat in the hall."—London Post.

### Webster's Work on Dictionary.

Noah Webster began his preparation for his American dictionary of the English language in 1807 and published it in 1828. Previous to 1807 he had published a speller and "A Compendious Dictionary" both of which were probably helpful in the new undertaking. The American dictionary contained 12,000 more words and about 40,000 more definitions than had appeared in any English dictionary published before his.

### Softening Hard Putty.

Putty that has become hardened by exposure, as around window glass, may be softened and removed by the use of the following mixture: Shake 8 pounds quicklime in water and add one pound pearlash, making the whole about the consistency of paint. Apply to the putty on both sides of the glass and let it remain for about 12 hours. It should then be possible to lift the glass out without trouble.

### Soapstone.

Soapstone is a rock composed essentially of the hydro-magnesian mineral talc, but never chemically pure, owing to the presence of varying quantities of other minerals, such as mica, chlorite, amphibole, pyroxene, etc. Soapstone is a massive rock, of bluish-gray-green color, and soft enough to be readily cut with a knife.

### When Five Cents Looked Large.

Among the day's pathetic figures is the local storekeeper who, locked in a telephone booth by a holdup man, didn't have a nickel to phone for the police.—Buffalo Express.

## For Sale at Public AUCTION Wednesday, May 10, 2 p. m. MIRA MONTE HOTEL

SIERRA MADRE, CALIFORNIA

¶A beautiful California place at 426 North Auburn Avenue. In the finest residential section, paved streets and sidewalks, nestled right in the foothills at the base of Mount Wilson with a superb view of the valley. At an elevation of 1300 feet—above the fogs, a really beautiful spot.

¶Over an acre of lovely grounds with tennis courts, fish pond, abundance of beautiful shade trees including a rather famous giant rubber tree, a fine healthy orchard of all kinds of fruit and nut trees, artistically layed out flowers and shrubbery.

¶Large three story, 17 room house, newly painted and renovated from top to bottom, large airy rooms, arranged for six comfortable apartments each complete with kitchen and baths. Hot water heating plant, Spence System, the best made, large upper and lower porches, 4 large open fire places, 2 sun rooms.

¶Double garage with roof built for observatory overlooking the whole valley. In plain view of the ocean and Catalina Island.

¶The place is furnished and the furniture goes with it.

¶The grounds are well kept and clean.

¶This place is a money maker but the owners are too far along in years to care for it. It must be sold to the highest bidder on the above date. Ideal for Apartment house or club. Well worth \$18,000 to \$20,000.

¶W. Dwight Hammond Auction Company enjoy a reputation of conducting honest Auction Sales. ATTEND THIS SALE.

¶Drive North on Auburn Avenue to Mira Monte Avenue. Place open for inspection any time.

### TUNNEL RECORD BROKEN ON BIG CREEK JOB

Edison Company Crew Driving Thru Hard Rock at Amazing Rate Of Speed

In its race to keep ahead of the demand for electric power in California the Southern California Edison Company is constantly breaking records. A report of the most recent accomplishment has just been received from the Big Creek headquarters of the company where 3500 men are engaged in harnessing the waters of the San Joaquin for the use of our rapidly growing industries.

In thirty days a crew of miners drove a section of tunnel 21 feet square, a total distance of 476 feet through solid granite. A standard of twelve feet daily had been set by the company but this was raised to fifteen feet, an increase of twenty-five per cent, by the men themselves. This was accomplished in a section of a tunnel whose length when complete will be 30,000 feet and will serve to carry practically the entire flow of the San Joaquin River from its junction with Big Creek to the site of the power house No. 3, where it will be utilized.

#### Interest Speeds Work

When one of the men was asked why such a record was made he replied, "Well, they need the power down yonder as soon as they can get it— and then, we're all partners in the company and that makes a difference."

As soon as road work can be completed work in the tunnel will be done from eight headings and the project will be ready for service early in 1923.

Construction work in the Big Creek country goes on twenty-four hours a day. In the tunnels the first crew to enter spends its time in drilling holes to a depth of eighteen feet. These are filled with dynamite and fired by

electricity. Electric ventilators soon draw the smoke from the shaft and then a steam shovel is advanced to remove the "muck" as it is termed. This is dumped into small cars which are then hauled out by means of an are then hauled out by means of an

There will be an aggregate of seventy-five miles of tunnels when the Big Creek project is fully developed.

#### Long Isolation

Separated from civilization by a snow clad mountain range of 10,000 feet altitude, several hundred miners located at the upper end of the project have been storm bound for the winter. Their only communication with the outside world is by radio, mail and such light supplies as can be carried in by an Alaska dog team.

#### Famous Irish Regiment.

Perhaps the oldest Irish regiment to have a continuous history is the Eighteenth Regiment of Foot, raised as Lord Forbes' regiment, and brought to England by James II in 1688, when the monarch began to collect Irish troops about him. Upon its colors it bears the harp of Ireland with the motto: "Virtutis Namuriensis Præmulum," or "The Reward for Valor at Namur." This honor was won in 1695 at Namur, when that regiment won also the title of "The Royal Irish Regiment."

#### Always.

Women make fine distinctions. It's all right to call them visions, but mighty dangerous to call them sights.

## The Story of Our States

By JONATHAN BRACE  
I.—DELAWARE

TO DELE-  
WARE  
falls the honor  
of being the  
first of the  
original thir-  
teen states.  
December 7,

1787, it officially adopted the Constitution and thus was made a beginning of our present Federal government. According to the seventh article of the Constitution, however, it was necessary for nine states to ratify it before it actually came into force. So it was not until the following June, by which time eight other states had accepted the Constitution, that the United States of America actually came into being.

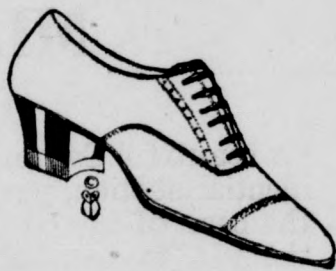

The early history of Delaware was a varied one. It started in 1638 when a small party of Swedes settled at the mouth of the Delaware river and called it New Sweden. In 1655, Peter Stuyvesant, the governor of the Dutch colony of New Netherlands, annexed this territory. But it did not long remain Dutch, for in 1664 the English took possession. When Pennsylvania was deeded to William Penn he desired access to the seacoast and at his urgent request Delaware was transferred to Penn's proprietorship. From the beginning of the eighteenth century, however, Delaware had its separate legislature, and at the time of the Revolution it became an independent state.

Delaware is next to the smallest of our states, having an area of only 2,370 square miles. Its participation in presidential elections is limited to three electors. This is arranged according to population. Each state is entitled to the same number of presidential electors as it has members of congress, so the influence of the different states in voting for the President varies from Delaware's three electors to New York's 45.

As to the derivation of the name Delaware, this was appropriately given to the state from the river, which in turn was named after the bay and the bay was called Delaware in honor of Lord Delaware, who was governor of the Virginia colony in 1610.

## Every Brush Stroke Defeats Depreciation

EVERY board that is well protected by paint is a board that will not decay.

If your whole house is so protected, it will not decay. That is the secret of saving yourself costly repair bills. Paint costs little compared to repairs.

Therefore paint your house when it needs it. A period of delay is a period of decay.

The next question is what paint to use. Use the best. It costs less in the long run.

The best paint spreads easily—it saves labor cost. It covers more surface per gallon than "cheap" paint.

And the best paint will serve many years longer than "cheap" paint.

So paint your house when it needs it and paint it with the best paint. That's a dollar-saving policy.

The best paints are scientific in formula and preparation. We've made

them for 73 years—to meet the weather conditions in the West.

The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc, and pure colors—are combined in Fuller's House Paints in scientifically exact proportions with long-time skill.

### Free Advice on Painting

Ask our agent for advice, color cards, etc.

Ask the Fuller Specification Department about the most desirable color schemes, color harmony and any other details.

Makers of Rubber Cement, Floor Paint, All-Purpose Varnishes, Silkenwhite Enamel, Fifteen-for-Floors Varnish, Washable Wall Finish, Auto Enamel, Barn and Roof Paint, Porch and Step Paint, and PIONEER WHITE LEAD.

## WOMAN'S CLUB NEWS

By Press Chairman, Mrs. Besse Palm or Rhodes.

### Monthly Luncheon and Program

On Monday, May 8, at 12:30 o'clock the monthly luncheon of the Woman's Club will be given, for which, as heretofore, tickets may be purchased at the Sierra Madre Electric Shop. Luncheon speakers will be the returned delegates, who will give their reports of the convention. At the afternoon session, which will begin at 2:30, the report of the nominating committee will be heard. Aside from a splendid paper which will be read by Mrs. E. T. Pierce, of Pasadena, the afternoon program will be a musical one and promises to be very much worth while. Mildred Lucile Jackson, coloratura soprano of Pasadena, will give two groups of songs in costume. One will be children's songs and the other, old time songs.

### Card Party

In the financial interest of the club, Mrs. E. C. Newton and Mrs. W. H. Ingraham will give a card party, on Thursday evening, May 11, in the club rooms. These hostesses are planning to make this evening a success socially as well as financially. Since there has been no function of this kind for some time, they hope to entertain a large crowd. A reasonable price of admission will be charged and prizes and refreshments will add to the pleasure of the evening. Club members, knowing the splendid effort which is being made to clear the club house of all debt, should be especially loyal, not only attending themselves, but bringing others.

### MONROVIA CELEBRATES HER BIRTHDAY MAY 20

Parade and All the Trimmings to Be Included in the Day's Entertainment

With a street parade, gigantic barbecue, wild-west rodeo and mammoth street dance Monrovia is going to celebrate her thirty-seventh birthday anniversary, Saturday, May 20. All Southern California, and the San Gabriel valley in particular, is most cordially invited.

Preparations are being made this year for a greater celebration than ever before. Community spirit has been stimulated by the recent highly successful re-organization of the Chamber of Commerce, and the people of Monrovia are co-operating in every effort to give their guests a good time and to establish their annual fiesta as an event of outstanding importance not only in the Valley but throughout Southern California.

### Parade a Feature

The fiesta will begin with the morning parade, in which decorated automobiles and floats will represent the various communities of the San Gabriel valley and neighboring cities. Handsome prizes and cups will be awarded the prize-winning entries. At noon an immense barbecue is planned. The afternoon program will be held at the High School field and featured among the exciting events will be the great rodeo.

In the evening the festivities will culminate with a big street dance with provisions being made for a thousand to trip the light fantastic. An entire block will be roped off for this event.

### Stage Tragedian's Joke.

They used to say of the late Louis James that he was one of the greatest humorists and practical jokers in stage history. It is recounted of him that on a certain occasion, in one of the Shakespearean tragedies, having to shake hands with a brother tragedian, he left clutched inescapably in the latter's fist a fat, raw oyster, which the unfortunate individual was obliged to keep by him through the remainder of the scene.

### British Army "Swagger."

It has been said that the English army authorities once issued an order that officers should not wear eye-glasses or spectacles, these being considered evidence of defective sight. A number of army officers then took to wearing the monocle, disobeying the army order by a safe margin and giving to themselves, as it was thought at the time, an air of distinction, the thought being something like that which prompted so many officers and enlisted men to carry a short cane which came to be called a "swagger stick."

### Yearly Coal Production.

It is reported that about 65,000 pounds of coral, worth \$700,000 are taken each year from the coral beds of Japan. The work is done by divers, the master diver receiving and grading the coral as it is brought in. Wholesale and exporting firms keep representatives there to inspect the coral and make bids for it. The color has much to do with the value. The most expensive is "boke," a pale quince color; next in value is pink, then white, light red and dark red.

### Personal Statement of J. Harley Long

THIS IS a straight plain business proposition.—I need \$10,000 in 10 days and if you want now or will want within a year anything advertised on this page, it will be a big saving of money to you to buy now I AM GOING TO MAKE THE GREATEST SACRIFICE OF—

### Phonographs, Pianos, Musical Instruments, Records and Musical Merchandise, Etc.

that ever took place in Pasadena. I must have \$10,000 and to get it have determined that I will give the people of Pasadena greater values than ever before. In case the \$10,000 is raised within 10 days I will close this sale and all goods will be marked back to original prices. I want to impress on the people of Pasadena and vicinity this one fact: This is a Bona Fide Dissolving Partnership Sale. For 10 years I have conducted this business in Pasadena. It has grown enormously and not for ten times ten thousand dollars would I betray the confidence of the people of this city and surrounding country who have built this business until it is the largest of its kind in Pasadena. Be ready tomorrow to come and come prepared to buy. Sale starts tomorrow morning at 9 o'clock.

(Signed)

J. HARLEY LONG,  
President Long's Music House.

*Every atom of  
"Red Crown" mixes with air  
FOR POWER*

"The gasoline of quality" is 100% POWER. It is refined to vaporize thoroughly. Every atom of it mixes in the carburetor with from 12 to 16 times its volume of air for POWER. With "Red Crown" you get ready starting—rapid acceleration—greater mileage—a continuous stream of power.

Run your car on "Red Crown" and *nothing else*, and you won't have to bother with carburetor adjustments. It is uniform in quality wherever and whenever you buy it.

Fill at the Red Crown sign—at Service Stations and garages and at other dealers.

(California)

## Of Local Interest

Born to Mr. and Mrs. Randolph Wood, Wednesday, May 3, a son.

Url M. Fox has well under way a new house of hollow tile construction on his large lot on East Laurel Avenue.

Miss Virginia Jolley of St. Louis, Mo., a niece of Mrs. Clara L. Smith, is coming to spend the summer at Orchard Camp.

Mrs. Howard Hill, Mrs. George B. Morgridge and Mrs. Victor Hill spent Wednesday in Los Angeles attending a family reunion.

Fifty members of Roamers Hiking Club of Los Angeles spent the week end at Orchard Camp. Everybody had a fine time. Extra music was provided for the occasion.

Mrs. E. C. Newton and Mrs. Spencer Howard entertained with a delightful luncheon on Saturday, at the home of Mrs. Newton on South Hermosa. Tables were arranged in the Palm Garden. Decorations were in purple wisteria and pink roses. Guests included the executive board of the Woman's Club and the chairmen of the various committees.

**WITHOUT STREET ADDRESS  
YOUR MAIL IS DELAYED  
AT OFFICE OF DELIVERY**

The Dead Letter Office has been in existence ever since Ben Franklin started our postal service. Even then people addressed mail to Mr. Ezekiel Smithers, "Atlantic Coast," and expected Ben to know just where Zeke lived.

Perhaps they had Zeke's address in letters up in the garret, maybe a chest full of 'em, but then it was easier to let Ben hunt Zeke. Today people are addressing letters to John Smith, New York, N. Y., or Chicago, Ill., thinking Uncle Sam can locate him, which is just as incomplete as was Zeke's address of yore. The Postoffice Department asks you to put the number and street in the address. It helps you.

## Trinidad Col.

How do you expect the Postal Clerk to know whether you mean Trinidad, California, or Trinidad, Colorado?

**ALWAYS SPELL OUT THE NAME OF THE STATE IN FULL IN THE ADDRESS.**

## "MORE BUSINESS IN GOVERNMENT"

This apt phrase was used in President Harding's first message to Congress and applies particularly in postal management where postmasters are being impressed with the fact that they are managers of local branches of the biggest business in the world.

## HERE COMES A STRANGER!

Let's make our post office look neat. Mr. Postmaster. Straighten up the rural letter box. Mr. Farmer. Tidy up some, Mr. Rural Carrier. First impressions are lasting. Maybe Mr. Stranger, taking notice of these improvements, will come back, bringing you benefits. Start these with "POSTAL IMPROVEMENT WEEK" May 1-6.

The Downward Path in Britain. A little girl was haled before the justices for killing a farmer's poultry, not without using bad language. "Little girl," said the magistrate, "you see how one thing leads to another. You began by cursing your Maker, and you end by throwing a stone at a hen."—London Daily Chronicle.

# S. R. NORRIS

SIERRA MADRE DEPARTMENT STORE

Phone Black 12

291 West Central

Since He Was Likely to Live.  
Mother—"Is Johnny well yet?" Little Dick—"I think so. I heard his mother scoldin' him this morning."—Answers.

## Degrees of Affection.

Alma, who had gone to visit some relatives, developed a severe case of homesickness and, when asked if she didn't like her cousins, she replied: "Yes, I like them, but not as well as home-grown folks."

## The Onion.

The onion is mentioned in the oldest writings of Egypt and India and has been for ages cultivated and consumed in almost every country in the world, surpassing all other vegetables in antiquity and extensiveness of cultivation.

## Right Idea of "Drudgery."

The secret of success still lies in the same old word, "drudgery." For drudgery is the doing of one thing, one thing, one thing, long after it ceases to be amusing; and it is this "one thing" I do that gathers me together from my chaos, that concentrates me from possibilities to powers.—W. C. Gannett.

## Always Purpose in Sorrow.

Hold sorrow till its more selfish aspect passes; till it turns its religious side to you; till time and experience and faith do their work; till you feel not its gloom, but its glory; not its cross, but its crown. Do not, through any device, lose its sanctifying influence, the greatest loss the soul can meet.—J. F. W. Ware.

## Wore His Antagonist Out.

Roosters have different tactics when fighting and often display considerable brainwork. Recently, in a Cuban rooster fight, where a little rooster was pitted against a big fellow, the little bird looked at his antagonist and started to run around and around, with the big rooster after him. Then, when the big bird was out of breath, the little one turned on him and whipped him in short order.

## Homely Babies Popular.

"Homely babies, especially those with freckles and red hair, are adopted, as a rule, more quickly than pretty babies," said the nurse in charge of a ward in one of Detroit's homes for orphans. "It seems that pretty babies, relying upon their good looks, fail to attract the attention of prospective foster-parents, while infants who were neglected when good looks were passed out, win their way into the hearts of childless couples through their happy smiles and flashing eyes."

## Her First Love Affair.

One moonlight night after attending a literary society meeting at a rural school house, a friend of mine escorted me to my home, writes a correspondent. As we stepped upon the front porch, Rover, our dog, decided the stranger did not belong there. He chased him until he jumped over the hedge. I laughed, of course. Others returning from the meeting saw the entire scene. A full account of the incident was given in the paper at the next meeting. This ended my first love affair.

## Mysteries of the Infinite.

What do the stars above us mean? What's around them? What is their purpose in creation? Our "star," which we call the sun, we fondly believe is for the purpose of giving our little grain we call the earth, warmth and light, so that we may live and move and have our being. As we strut about and enjoy our petty achievements we do not often contemplate the starry vault above us. Perhaps it is just as well so, for when we search out the knowledge of the heavens how we shrink! How we shrink!—Chicago Journal of Commerce.

## Something Doing.

The job is what counts. The world respects the man who works. It has small use or respect for the man who loaf because he feels himself above the job that is offered him. The man who produces something—even though it be nothing more than a day's work at the bottom of a trench, is of more importance to the world than he who loiters for a kid glove situation.—Los Angeles Times.

## What a Man Seeks.

What a man seeks through his education is to get to know himself and the world; next, that for his knowledge it is before all things necessary that he acquaint himself with the best which has been thought and said in the world; finally, that of this best the classics of Greece and Rome form a very chief portion, and the portion most entirely satisfactory. With these conclusions lodged safe in one's mind, one is stanch on the side of humanities.—Matthew Arnold.

## Fruits in Powder.

It would be very convenient to keep in the pantry fruit juices in the form of dry powders, so that one could mix a glass of lemonade or orangeade or other beverage offhand. They would be useful, also, for cooking. A newly patented process for making such powders consists in mixing the fruit juice with gelatinized starch and reducing the solution to a dry product by atomizing it into a current of dry, warm air.

## The Hope of Eternity.

Transiency is stamped on all our possessions, occupations and delights. We have the hunger for eternity in our souls, the thought of eternity in our hearts, the destination for eternity written on our inmost being, and the need to ally ourselves with eternity proclaimed by the most short-lived trifles of time. Either these things will be the blessing or the curse of our lives. Which do you mean that they shall be for you?—Alexander MacLaren.

## Unduly Proportioned.

Billy had gone with his mother on a visit to his uncle, who owned a farm. When they arrived they were met by Billy's uncle. As they seated themselves in the machine Billy noticed a dachshund sitting beside his uncle in the front seat. Having never before seen such a dog he suddenly exclaimed: "Oo, look, muvver, look at that thing that's two dogs long 'n' half a dog high."

Phone social items to Black 42—The News Office.

## Lightning Strokes.

With regard to the voltage of lightning strokes there are only estimates. These range from a few hundred thousand to several billion volts, depending upon the ideas of the persons making the estimates. No measurements have been made. The amperage of lightning strokes is more definitely known, a few attempts having been made to measure it. The best measurements of this kind show that the current intensity may be as great as 25,000 amperes. As for harnessing lightning and turning it into energy useful to man, no practicable scheme has yet been presented.

## Thought.

Thinking leads man to knowledge; he may, see and hear, and read and learn, as much as he please, he will never know any of it, except that which he has thought over, that which by thinking he has made the property of his mind. Take away thought from man's life, and what remains?—Pestalozzi.

## Bagpipe's Music.

The music of a bagpipe proceeds from three or four pipes. One of these, the chanter, is a primitive oboe with eight holes; the others called drones, sound each one low continuous tone.
